# Synopsis

When small-town musician Lester Lawrence heads to the city in search of fame, he is transformed into the spectacularly ridiculous Birdman as part of a crooked corporate scheme. Years later, with his hometown facing destruction, Lester and his former manager Evelyn must reunite, expose the truth and bring one very unlikely hero back from the dead. *Evie & the Birdman* is a colourful musical comedy packed with romance, catchy songs, corporate chaos and plenty of feathers.

This Production is being judged for the APT Awards  
to be presented in 2027.
